

Description

A1 Filter
The A1 gas filter is designed to protect against organic vapours with a boiling point above 65 °C. Manufactured in accordance with EN 14387, it provides reliable filtration performance when used with compatible reusable respirators, making it suitable for a wide range of industrial environments where respiratory protection against organic vapours is required.

Features

Material	ABS
Standard	EN 14387:2004 + A:2008
Connection	Standard bayonet connection for double filtering device as per EN 136
