

Description

Enhance your security with our electric strike—easy flush installation and a reversible design for added convenience. With a secure 7.8mm jaw depth and flexible jaw adjustment, it adapts to diverse setups. Tested for 200,000 cycles, this strike ensures lasting durability.

Operable in temperatures from -25ºC to +50ºC, it withstands the elements and offers a robust breaking resistance of 295 kg. Standard delay action, unlatching, and optional diode and varistor features enhance its functionality.

Front ref. 902 available, Grey steel Ref. 842/902G and Stainless steel. Ref. 842/902X.
